

**Product:**  
**KODAK Rapid Print Scanner/G4**

**Announcement Date:**  
 January 31, 2008

**Launch/Initial Shipments:**  
 Mid-Year 2008

**Value proposition:**

The KODAK Rapid Print Scanner is an option for Kodak's G4 kiosks that allows consumers to quickly and easily scan their shoeboxes of treasured photos to either digitally archive them or bring them to life in premium products such as photobooks, collages, Picture Movie DVD's, or more. Retailers will benefit from the higher margins available from these premium products.

**Product Features:**

- **Fast, high quality scanning:** scans up to 30 4x6 photos per minute at 300dpi
- **Multiple Print Sizes:** Accepts from wallet size up to 8x12
- **Enablement software for G4 Kiosks:** User interface shows the Rapid Print Scanner as input option to Create a Kodak Shoebox CD (with configurable retail pricing) as well as the suite of other kiosk outputs
- **Mounting Stand/Print Catcher:** provides stability at the retail counter or on a Kodak kiosk

**Target Audience:**

- Retailers that seek better ways to improve their profitability by offering their customers high value, premium photo content via proven technologies and solutions, while also leveraging current investments.
