

Listing of Kodak Certified Suppliers

Eastman Kodak Company views suppliers as a critical part of the systems Kodak uses to create products and services that delight Kodak's customers. The Kodak Supplier Quality Process optimizes the business relationship between Kodak and its supplier base in the areas of quality, on time delivery, lead time and year over year productivity performance for acquired products and services. One key element of the Kodak Supplier Quality Process is the Kodak Certified Supplier Program. The Kodak Certified Supplier Program, used by selected Kodak businesses, is recognition bestowed on a supplier when the supplier demonstrates the ability to consistently meet Kodak's performance expectations for quality, on time delivery, lead time, and year over year productivity for the goods and services they provide. In addition, a supplier must have a sound and effective quality and operational management system that meets Kodak's minimum requirements for Certification. Once a supplier has achieved Certified supplier status, in each subsequent year, all Certified suppliers are rigorously evaluated to insure that the supplier has continued to meet Kodak's performance expectations for quality, on time delivery, lead time and year over year productivity. Suppliers that have successfully met their criteria maintain Certified supplier status for the following year. For further information related to the Kodak Supplier Certification Program contact your Kodak Purchasing Representative. The suppliers listed below are Kodak Certified Suppliers consistent with the Kodak Supplier Quality Process.
