

Preannounced Discontinuance

KODAK ULTRALINE Photoplotter Film UPS7 will be discontinued May 2003. The suggested replacement is KODAK ACCUMAX Photoplotter Film AGX7. AGX7 will not process in KODAK ULTRALINE Developer and Replenisher and requires processing in KODAK ACCUMAX Rapid Access Developer and Replenisher, Material No. 887 5569. AGX7 may require an exposure adjustment. Technical information about AGX7 can be found online at: www.kodak.com/go/PCBproducts.

The following products will be discontinued.
