

Kodak

DC280 Zoom Digital Camera

Feature Rich, Point and Shoot for the Discerning User

Fast, responsive and sophisticated, the KODAK DC280 Digital Camera means business. Start with two-megapixel resolution with enough detail for photo-realistic 18 x 24cm prints. Move on to the removable KODAK Picture Card and the USB interface which lets you download in moments. The 30 mm to 60 mm lens, with 2X optical/3X digital zoom, is ideal for all kinds of business uses. Finally, consider its intuitive design and responsive performance. You won't waste time learning a new system—the DC280 looks and feels like the cameras you're familiar with. The DC280 lets you capture images quickly and professionally. And put them to work immediately.

✓ Stunning Two-Megapixel Resolution

The DC280 features megapixel technology, capturing 1760 x 1168 pixels per image - provides enough detail for sharp, colourful 18 x 24cm prints. The perfect partner.

✓ Fast And Responsive

Processes data quickly so you won't be left waiting between shots. You'll be more productive and take advantage of more opportunities.

✓ Familiar, User-Friendly Design

Looks, feels and behaves much like a traditional camera. There's less of a learning curve, so you can put the DC280 to work immediately.

✓ USB Support For Faster Downloads

Less waiting and faster results, with full USB support that lets you download up to 10X faster than serial interfaces.
