

Kodak

DVC325 Digital Video Camera

Great
video-conferencing
or still images
on the web

The KODAK DVC325 Digital Video Camera is the easy, fun way to capture and share quality digital pictures and video. There's a USB interface for up to 10X faster throughput versus serial interfaces. It makes video-conferencing sharper and smoother, and communications clearer. Bundled software lets you create slideshows, build catalogues, add pictures to e-mail, and even star in your own videos! The DVC325 is the simple, quick way to turn your PC or laptop into an image-capturing, video-conferencing powerhouse.

✓ Brilliant, High-Quality Images

You get still and video capture up to 640 x 480 pixel resolution or up to 30 frames per second performance. That means, you'll enjoy smooth video and eye-catching image quality.

✓ The Power Of Internet Videoconferencing

Make Internet videoconferencing a breeze with bundled MICROSOFT Net Meeting Software and the USB interface. No video capture board needed!

✓ Easy-To-Use Software Expands The Fun

Comes with PRESTO! Software applications that give you limitless options for more fun and greater productivity. Store and catalogue pictures, add pictures and video to e-mail and create slideshows. Even create professional-quality videos that include text, video and audio special effects.

✓ Adhere-Anywhere Flexibility

Laptop mounts or a detachable base let you attach the DVC325 to your monitor, laptop, or any surface that suits your needs. It's small and light enough to be used as a handheld unit, too.

✓ Wide Tilt Range Movement

The DVC325 lets you get the picture with a generous tilt range of up to 75°. You'll be able to capture more and communicate better.
