TARIFF SURCHARGE NOTICE

Considering recent changes to U.S. tariffs, some of our products and components of products that we import into the US are now subject to additional costs. To remain transparent and fair with our customers, we have implemented a separate tariff surcharge on all new orders for these materials.

Please note:

- Existing orders and POs will not be affected.
- This surcharge applies only to the impacted products listed below. It is not a blanket increase to our list prices.
- This is a pass-through cost only — there is no added margin or markup.
- This surcharge only partially covers the entire cost of tariffs on these products.

We've chosen to use a separate surcharge rather than adjust the base price of our products to keep pricing as clear and flexible as possible. If the Section 301 China duties, Section 604 Fentanyl duties, and Section 604 Reciprocal duties or other duties that are applied to future imports are reduced, increased or eliminated, the surcharges will be adjusted accordingly.
