

KODACOLOR Direct-to-Garment

Kodak's KODACOLOR print systems provides fabric designers, brands, printer manufacturers, and fabric printing businesses with high-quality options to meet all their customers' printing demands.

Kodak Expertise

With over 30 years' experience producing and selling digital inks for thermal piezo and continuous inkjet systems, Kodak has developed world class print systems with benefits including:

- Color inks delivering a bold and vibrant color gamut and true dark black
- Brilliant bright white for greater color enhancement
- High jetting reliability for increased printing productivity
- Certified with Oeko-Tex Eco-Passport for cleaner, safer textile production

KODACOLOR Pre-Treats are formulated exclusively for the EDTG, RDTG & ERTR Ink Sets to produce the highest quality image and excellent durability in wash-fastness.

Storage Conditions: Store in a clean, dry area between 10°C and 30°C (50°F to 85°F).

Shelf Life: 2 years from manufacture date.
