

KODAK FTF Ink

Best in class water-based pigment inks are an integrated piece of the KODACOLOR FTF (the next stage in DTF print technology) digital transfer print system. That system includes KODACOLOR FTF (DTF) inks, Transfer Film and TPU Powder. The inks are compatible with EPSON DX7/5, 5113, 4720 and i3200 Print Heads.

The KODAK FTF Ink System Advantage:

- Transfer prints on almost any fabric type
- Print is soft, stretchable, and resilient
- Colors are bright with very high density
- Whites are solid covering dark fabric
- Capable of maintaining fine image details and text – ink technology keeps the ink where it lands
- Transferred graphic resists perspiration, contact sports, outdoor wear, and multiple wash cycles

The bottom line is, KODACOLOR transferred printed garments stay crisp and colorful through many wear cycles.

Catalog #	Color	Packaging	Viscosity (cP.25°C)	Surface Tension (mN/m)	Fastness Light	Fastness Washing	Fastness Perspiration
7494776	Black	20 kg	3.5-4.5	22-28	6-7	4-5	4-5
7494719	Cyan	20 kg	3.5-4.5	22-28	6-7	4-5	4-5
7494735	Magenta	20 kg	3.5-4.5	22-28	6-7	4-5	4-5
7494750	Yellow	20 kg	3.5-4.5	22-28	6-7	4-5	4-5
7494792	White	20 kg	3.5-4.5	22-28	6-7	4-5	4-5

Physical Characteristics

Appearance	Black/Cyan/Magenta/Yellow/White
Shelf Life	Color/White Ink Shelf Life – 2 years from manufacture date
Packaging	20 kg container
Storage Conditions	Store in a clean, dry area between 10°C - 30°C and 45% - 75% relative humidity.
