

# KODAK Finishing Solutions

## KODAK Single Plow Station

### PLOW FOLDING, SCORING AND SLITTING — ALL IN ONE EFFICIENT MODULE

The Kodak Single Plow Station adds folding, scoring and slitting capabilities to your inline or near line digital web operation.

#### Format Flexibility

The KODAK Single Plow Station integrates with the KODAK Variable Repeat Rotary Cutter to deliver a comprehensive inline or nearline finishing solution. The station can accommodate a variety of paper types with high-speed capability, creating single or double gatefold formats for brochures, catalogs, and specialty direct mail pieces with ease.

<b>Maximum web width</b>	711 mm (28")
<b>Maximum speed</b>	Up to 304 mpm (1,000 fpm)
