

BUILD LOYALTY AND CONTROL COSTS

Give your customers a direct connection that secures and streamlines the job submission, communication and tracking process.

Keeping your customers satisfied means producing accurate, high-quality work in an error-free, timely process. KODAK INSITE Prepress Portal streamlines job submission, collaboration and management for both you and your customers, enabling a highly efficient prepress process. With round-the-clock access and full integration with KODAK PRINERGY Connect, INSITE Prepress Portal provides powerful tools for minimizing errors, unexpected costs and delays, while strengthening customer relationships.

Deliver a best-in-class customer experience

Become a valued partner to your clients with tools that help them streamline collaboration and eliminate bottlenecks, errors and unnecessary costs early in the process.

Improve efficiency by streamlining file submissions and approvals

Reduce cycle time with remote job submission, real-time collaboration and online approval. Give prepress operators, customer service representatives and your customers full job visibility 24x7x365, helping boost overall productivity.

Catch problems early

Automatically identify errors at job submission with integrated PRINERGY Preflight+, so problems can be corrected before they become a costly rework.

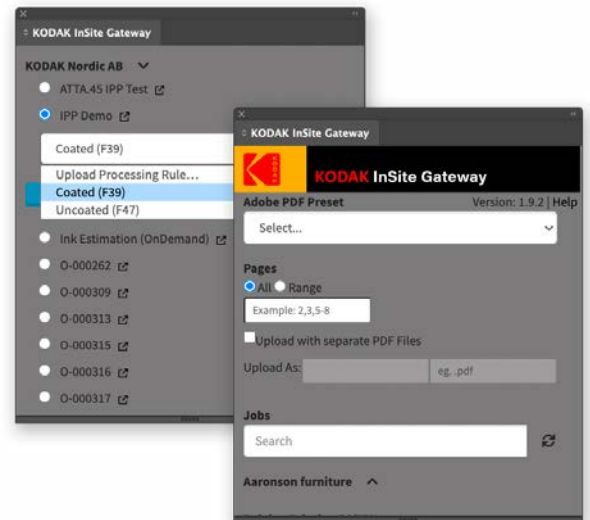

Speed turnaround times and reduce hard copy costs

Eliminate hard copy proofs with our MATCHPRINT Virtual calibration solution, saving time and money.

Connect multiple locations with a secure solution

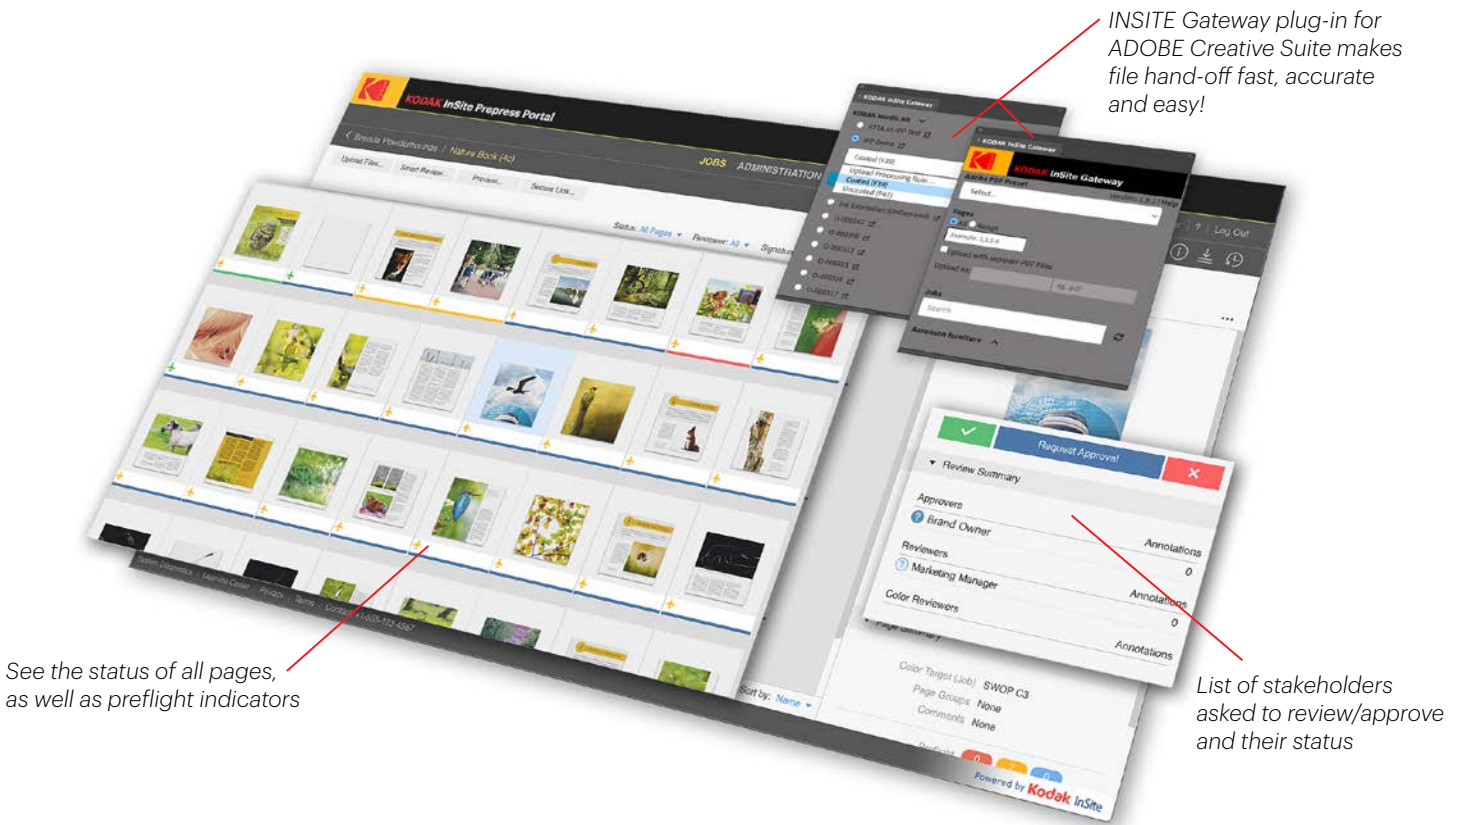

Build a single login for large, multi-site companies with INSITE Enterprise. When paired with PRINERGY Connect and INSITE Prepress Portal, this option allows your customers to view their jobs across multiple locations in a secure environment.

INSITE Gateway plug-in for ADOBE Creative Suite makes file hand-off fast, accurate and easy!
