KODAK PRINERGY INSITE

PREPRESS SOFTWARE (IPP)

BUILD LOYALTY AND CONTROL COSTS

Give your customers a direct connection that secures and streamlines the job submission, communication and tracking process.

KODAK PRINERGY's INSITE Prepress Portal is fully integrated with PRINERGY Connect, offering round-the-clock access and robust automation tools to reduce errors and unexpected costs while enhancing customer relationships.

Deliver a best-in-class customer experience
Become a valued partner to your clients with tools to help them collaborate; eliminating bottlenecks and expensive errors early in the process.
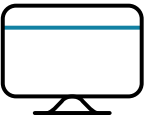

Improve efficiency by streamlining file submissions and approvals
Reduce cycle time with remote job submission, real-time collaboration and online approval. Boost productivity by giving prepress operators, customer service representatives and your customers full job visibility 24x7x365.
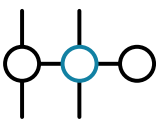

Catch problems early
Automatically identify errors at job submission with integrated PRINERGY Preflight+, so problems can be corrected before they become costly.
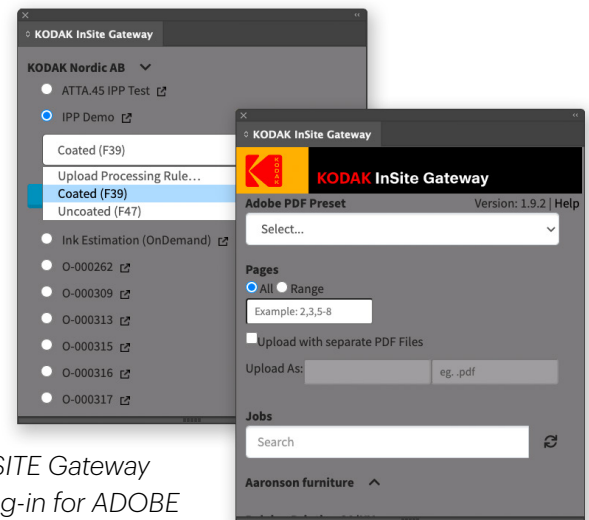

Speed turnaround times and reduce hard copy costs
Save time and money by eliminating hard copy proofs with MATCHPRINT Virtual.

Connect multiple locations with a secure solution
Create a single login for large, multi-site companies using INSITE Enterprise. Customers can securely view their jobs across multiple locations.

INSITE Gateway plug-in for ADOBE Creative Suite makes file hand-off fast, accurate and easy!
