

FACT SHEET - KODAK PROSPER 7000 Turbo Press

Kodak takes high-speed inkjet printing to a whole new level with the introduction of the KODAK PROSPER 7000 Turbo Press. Utilizing KODAK Stream Inkjet Technology, this groundbreaking inkjet web press prints almost 35% faster than its nearest competitor currently on the market.

Key features

- Unmatched printing speeds of up to 410 mpm (1,345 fpm); throughput up to 5,523 A4 ppm
- Prints almost 35% faster than its nearest competitor. No other web-fed or sheet-fed inkjet press on the market can match it for all-out speed
- Three print modes and resolutions: Quality – 600 x 900 dpi, Performance – 600 x 600 dpi, Turbo – 600 x 450 dpi
- Paper range of 42–270 gsm, prints on a wide range of coated and uncoated stocks, newsprint, specialty papers and recycled papers
- Web width 203–648 mm (8–25.5 in.); variable cutoff length up to 1,372 mm (54 in.)
- 621 mm (24.45 in.) print width with 6 jetting modules per imaging station
- Runs eco-friendly, water-based, nanoparticulate, pigment CMYK KODAK EKTACOLOR Inks for lowest cost and highest quality
- Includes 8 near-infrared (NIR) dryers in proprietary inter-station configuration enabling high ink coverage at high speeds
- Exceptionally robust press with a monthly duty cycle of over 200 million A4 pages

Customer benefits

- Choice of three different print modes allows easy adjustment of print speed and quality to the requirements of each job, always ensuring maximum production efficiency
- Extremely high productivity, application flexibility and the use of cost-effective inks create more profit per job
- Enables commercial, publishing and newspaper printers to compete more effectively with offset and to shift more long run jobs from higher cost offset and digital presses to inkjet

Executive quote

“With the introduction of the PROSPER 7000 Turbo Press, Kodak once again points the way to the future of inkjet production printing. Providing unmatched speed and an enormous range of applications, our new top model in the KODAK PROSPER Press family sets innovative standards for digital commercial, publishing and newspaper printing.”

Jim Continenza, Executive Chairman and Chief Executive Officer, Eastman Kodak Company
