

## KODAK Specialty Chemicals

# Your vision. Our experience. The perfect chemistry.

### A trusted partner

- A USA based service provider
- Competitive costing
- Respect for customer IP & technology
- Responsive competent team of professionals
- Service and quality focused
- Global scope, local feel

### What can we offer you?

- Chemical processes efficiently taken from paper into production
- A comprehensive Health, Environmental, Regulatory, and Safety compliance review completed on all manufacturing processes
- 1,500 approved manufacturing processes in our portfolio

Experienced, innovative chemists and technical staff supporting process development, scale-up, and optimization

Over 500 different final chemicals items ranging from Kg scale to metric tons manufactured annually

### Your own on-site analytics

Access and monitor each step of the process from your own proprietary online portal, right at your desktop.

### Real-time quality control

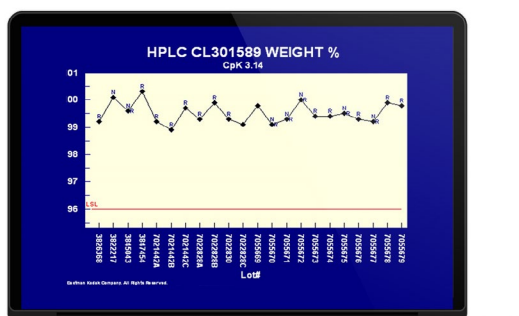

Your On-site Analytics dashboard gives you a real-time view of the health of your products.

### Exceptional visibility and control

Track the level of a critical impurity or report on the process capability of your product – yourself, from your dashboard.

### Unparalleled transparency

Few companies offer the transparency into your chemistry that Kodak's On-site Analytics provides.

# KODAK Specialty Chemicals

## Markets served

- Personal Care
- Pharmaceutical
- Industrial Specialties
- Emerging Energy Technologies
- Electronics
- Imaging
- Green Technologies

## Equipment sized for your project

- Batch Reactors**
  - 88 G/L and SS Reactors
  - Distributed Controls
  - Pilot - 1000-Gallon Scale
- Ultrafiltration**
- Drying**
  - Rotary & Tray Dryers
- Grinding, Blending & Custom Packaging Isolation Equipment**
  - Centrifuge, Filter Press & Membrane Press
- Specialized**
  - Pilot-Scale High Pressure Reactors
  - High Vacuum Distillation
  - Wiped Film Evaporator

## The analytical capability to deliver high-quality chemicals to you

- Conductivity
- Density
- Differential Scanning Calorimetry
- FT Infrared Spectroscopy
- Gas Chromatography
- Gravimetry
- Inductively Coupled Plasma
- Ion Chromatography
- High Pressure Liquid Chromatography
- Microscopy
- GC Mass Spectroscopy
- LC Mass Spectroscopy
- Mass Spectroscopy
- NMR Spectroscopy
- Particle size Characterization
- Potentiometry
- Size Exclusion Chromatography
- Surface Tension Analysis
- Thermogravimetry
- Turbidimetry
- Ultraviolet, Visible and NIR Spectroscopy
- Viscosity
- X-Ray Spectroscopy

## The technology you need

- Complex Heterocyclic Molecules
- Functional Polymers
- Encapsulation
- Imaging Compounds
- Custom Synthesis & Toll Manufacture

## Proprietary database to find just the right chemicals for your project

- Drawing on decades of R&D experience, we possess a portfolio of information on more than 100,000 chemicals.
- Search based on Analysis & Property
  - Search based on Chemical ID
  - Search based on Chemical Structure

## Chemical warehouse

CFAT compliant, Foreign Trade Zone certified facility and compliant with U.S. Customs, ATF & Homeland Security Agency requirements.
