

INTRODUCING PERFECTING AT THE FOLDER

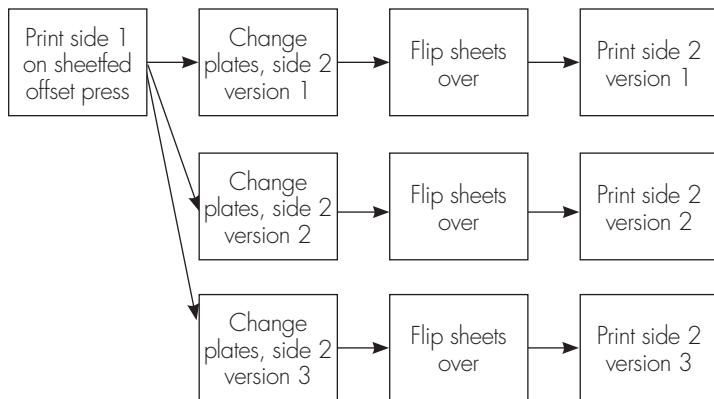

KODAK PROSPER S-SERIES IMPRINTING SYSTEMS

- Create higher value options: add variable print, 1:1 mobile marketing and coupon printing options for your customers
- Provides quick payback: ROI may enable payback in less than 1 year
- Increase efficiency: Flexibility to move low revenue-generating monochrome jobs from offset press to finishing line
- Increase productivity: Run the folding line at max speed; inkjet can run up to 300 mpm
- Reduce waste: Avoid waste sheets associated with offset job set up
- Maintain offset print quality: Kodak's inks provide jet black image
- Expand applications with Indirect Food Compliant inks

DELIVER REAL EFFICIENCIES AND ADD VALUE TO CORRUGATED PACKAGING

Move from your current sheetfed offset process ...

Replace low-density, low-speed options

with high-density, high-speed inkjet options from Kodak

... to streamlined "perfecting at the folder"
