

KODAK Specialty Chemicals

Your vision. Our experience. The perfect chemistry.

A trusted pharma partner

A USA based service provider
Competitive costing
Respect for customer IP & technology
Responsive competent team of professionals
Service and quality focused
Global scope, local feel

What can we offer you?

Chemical processes efficiently taken from paper into production
A comprehensive Health, Environmental, Regulatory, and Safety compliance review completed on all manufacturing processes
1,500 approved manufacturing processes in our portfolio

Experienced, innovative chemists and technical staff supporting process development, scale-up, and optimization

Over 500 different final chemicals items ranging from Kg scale to metric tons manufactured annually

Your own on-site analytics

Access and monitor each step of the process from your own proprietary online portal, right at your desktop.

Real-time quality control

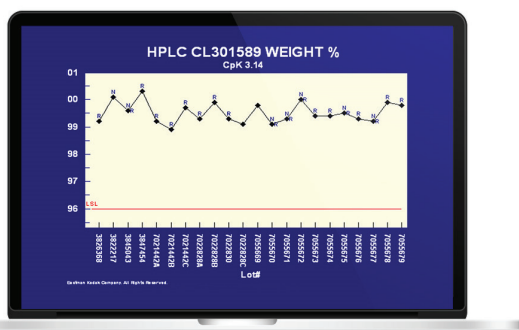

Your On-site Analytics dashboard gives you a real-time view of the health of your products.

Exceptional visibility and control

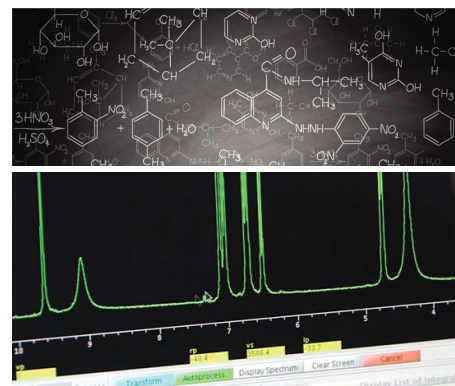

Track the level of a critical impurity or report on the process capability of your product – yourself, from your dashboard.

Unparalleled transparency

Few companies offer the transparency into your chemistry that Kodak's On-site Analytics provides.

KODAK Specialty Chemicals

The technology you need

- Complex Heterocyclic molecules
- Functional Polymers
- Encapsulation
- Photoactive compounds
- Custom Synthesis & Toll manufacture

Equipment sized for your project

Batch Reactors

- 88 G/L and SS Reactors
- Distributed Controls
- Pilot - 1000-gallon scale

Ultrafiltration

Drying

- Rotary & Tray Dryers

Grinding, Blending & Custom Packaging Isolation Equipment

- Centrifuge, Filter Press & Membrane Press

Specialized

- Pilot-scale high pressure reactors
- High Vacuum Distillation
- Wiped Film Evaporator

The analytical capability to deliver high-quality chemicals to you

- Atomic Absorption Spectroscopy
- Conductivity
- Density
- Differential Scanning Calorimetry
- Emission Spectroscopy
- FT Infrared Spectroscopy
- Gas Chromatography
- Gravimetry
- Inductively Coupled Plasma
- Ion Chromatography
- High Pressure Liquid
- Chromatography Microscopy
- GC Mass Spectroscopy
- LC Mass Spectroscopy
- Mass Spectroscopy
- NMR Spectroscopy
- Particle size characterization
- Potentiometry
- Refractive Index
- Size Exclusion Chromatography
- Surface Tension Analysis
- Thermogravimetry
- Turbidimetry
- Ultraviolet, Visible and NIR
- Spectroscopy Viscosity
- X-Ray Spectroscopy

Heterocycles per your requirements

Heterocyclic building block manufactured for functional dyes, photoactive compounds on a metric ton basis.

- Broad experience in heterocyclic chemistry applies to Life Sciences for custom synthesis and toll manufacture

Proprietary database to find just the right chemicals for your project

Drawing on decades of R&D experience, we possess a portfolio of information on more than 100,000 chemicals.

- Search based on Analysis & Property
- Search based on Chemical ID
- Search based on Chemical Structure

Chemical warehouse

CFAT compliant, Foreign Trade Zone certified facility and compliant with U.S. Customs, ATF & Homeland Security Agency requirements.
