Temporary KODAK ECN-2 Kit Color Developer Replenisher, Part B
20 L HDPE plastic pail / To make 400 L

Due to a temporary packaging supply shortage KODAK will temporarily be substituting a 20L pail of KODAK ECN-2 Kit Color Developer Replenisher, Part B (CAT 7467335) for 2 units of the (CAT 7505647) 2 x 5 L KODAK ECN-2 Kit Color Developer Replenisher, Part B. This change is temporary and the product will revert to the original size when the next batch is manufactured.

Mixing Instructions for Cat No 7467335 KODAK ECN-2 Kit Color Developer Replenisher Part B:
Cat No 7467335 KODAK ECN-2 Kit Color Developer Replenisher Part B is supplied in a 20L HDPE plastic pail to make 400L of replenisher when combined with (4) four 20L units of CAT No 7467327 KODAK ECN-2 Kit Color Developer Replenisher Part A.

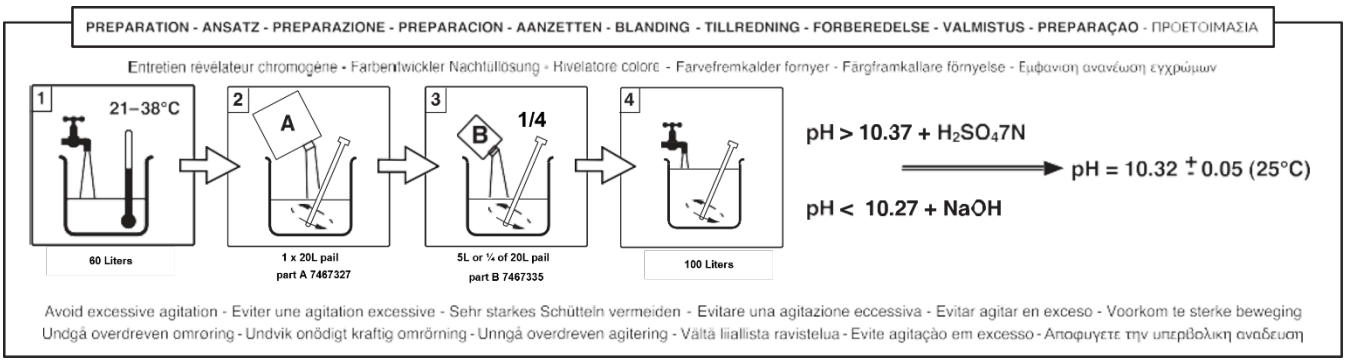

Instructions below are for a full 400L replenisher mix:

- *4 units of the 20L part A (7467327) & 1 unit of the 20L part B (7467335).*

Instructions below are for a partial 100L replenisher mix or multiples there of:*

- *1 unit of the 20L of part A (7467327) & ¼ unit or 5L of the 20L part B (7467335).*

* Upon opening, it is recommended that all 20L of the solutions are used as oxidation can occur to the liquid remaining in the 20L unit.
