# KODAK PRINERGY
BUSINESS LINK

BUSINESS LINK CONNECTS TEAMS, TOOLS, AND DATA ACROSS YOUR ORGANIZATION

From job onboarding to final output, this seamless connection between your MIS/ERP system and PRINERGY, eliminates touch points, reduces errors, and gives real-time visibility across your entire workflow.

Automated Job Creation & Imposition
Jobs are automatically set up in PRINERGY with accurate specifications and imposition layouts, reducing manual effort and ensuring production-ready precision.

Web-Based Job Access & Seamless Online Collaboration
Customers gain instant web access for review, approval, and collaboration by linking MIS driven jobs to KODAK PRINERGY INSITE Prepress Portal's online suite of tools.

Automated Tracking of Materials and Job Status*
Gain accurate, real-time visibility of job status and material usage via our JDF/JMF integration with your MIS/ERP systems for streamlined tracking and accurate job costing.
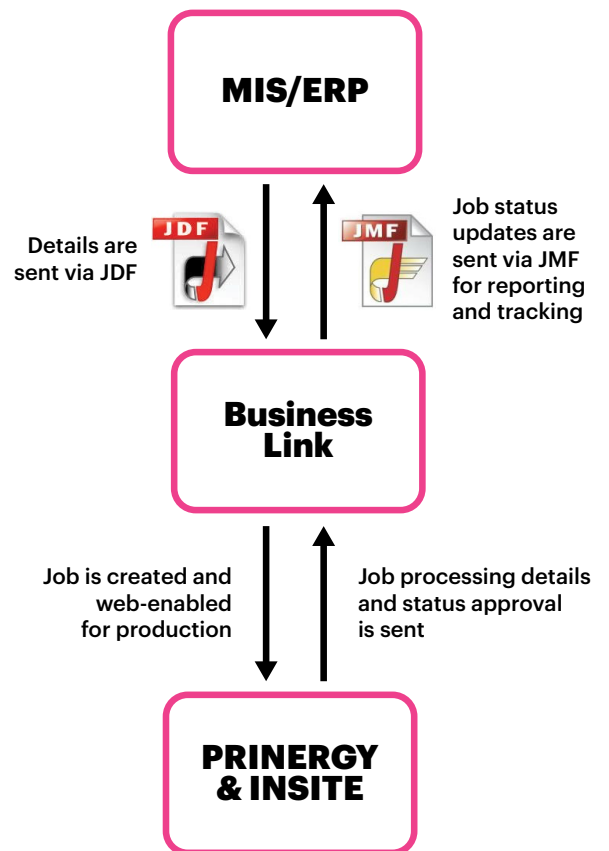

*Requires MIS with real-time status update support.

Real-Time Visibility & Reporting
Built-in reporting delivers real-time insights on job changes and collaboration activity captured in PRINERGY INSITE Portals.

Business Link Integration
