

## Manufacturing Source Change for KODAK VERSAMAT 885 Chemicals

In our continuing commitment to keep you informed of any changes, please note that we have moved the manufacturing of KODAK VERSAMAT 885 Chemicals from Rochester, New York to our manufacturing plant in Wuxi, China. Catalog Numbers and pricing remain the same. Formulation has been trade tested to assure there is no change in performance. Also, due to new regulations, you will notice a change in packaging shown in the pictures below.
