

## A. NON-GAAP MEASURES

In this third quarter 2022 financial results news release, reference is made to the following non-GAAP financial measures:

- Operational EBITDA;
- Revenues and Operational EBITDA on a constant currency basis; and
- PROSPER inkjet annuities revenue on a constant currency basis.

Kodak believes that these non-GAAP measures represent important internal measures of performance. Accordingly, where they are provided, it is to give investors the same financial data management uses with the belief that this information will assist the investment community in properly assessing the underlying performance of Kodak, its financial condition, results of operations and cash flow.

Kodak's segment measure of profit and loss is an adjusted earnings before interest, taxes, depreciation and amortization ("Operational EBITDA"). Operational EBITDA represents the income from continuing operations excluding the provision for income taxes; non-service cost components of pension and OPEB income; depreciation and amortization expense; restructuring costs and other; stock-based compensation expense; consulting and other costs; idle costs; other operating expense, net; interest expense; and other income, net.

The change in revenues and Operational EBITDA on a constant currency basis, as presented in this financial results news release, is calculated by using average foreign exchange rates for the three months ended September 30, 2021, rather than the actual average exchange rates in effect for the three months ended September 30, 2022.

The following table reconciles the most directly comparable GAAP measure of Net Income to Operational EBITDA and Operational EBITDA on a constant currency basis for the three months ended September 30, 2022 and 2021, respectively:
