FIVE REASONS TO UPGRADE TO KODAK PRINERGY PROOFING (KPS) SOFTWARE VERSION 10.0

1

WORK VIRTUALLY

Increase productivity and reduce costs with KPS now available in a virtual operating environment.

2

PANTONE LIBRARIES ARE INCLUDED

Save money with PANTONE color libraries included in your software subscription.

3

SIMPLE COLOR SET-UP

Save time and money with our guided color set-up process, achieving color accuracy the first time, without need for third party support.

4

VERIFICATION OF COLOR ACCURACY

Improve efficiencies with hands-off color verification.
Easily output, measure and verify color accuracy against a standard.

5

IMPROVE SECURITY

Entrust security certificates are installed to protect against malicious attacks.
