EKTACHROME E100VS

KODAK PROFESSIONAL EKTACHROME Film E100VS

Visual Power

Need a little extra **visual intensity** for your images? With E100VS Film, you can **wow your clients with vivid, saturated color** and **outstanding sharpness**. Give your images the extra punch that demands a second look.

Flexibility

With true **ISO 100 speed** and **superb reciprocity**, E100VS Film provides a real shooting advantage in many lighting situations. You've got the capability to capture motion, eliminate the need for tripods, or shoot later in the day under existing light.

A Noticeable Edge

Get your work noticed. Capture the intense color that your clients want. With E100VS Film, you can create images with electrifying color that leaps from the light box to catch your client's eye. Use E100VS Film in the studio or on location—for nature, scenics, wildlife, food, and jewelry—in fact, for any subject that calls for brilliant and dramatic hues.

Kodak Professional

EKTACHROME E100VS

KODAK PROFESSIONAL EKTACHROME Film E100VS

E100VS Film is daylight balanced for both location and studio applications. And with its vivid saturation and speed, E100VS Film offers a film choice you can rely on for nature/wildlife, product/stills, or food, and other applications that require extra color.

FEATURE

- Kodak's proprietary color amplifying technology
- Matched color records
- KODAK T-GRAIN® Emulsion technology
- ISO 100 speed
- Superb reciprocity

ADVANTAGE

- The most vivid, saturated colors available today in a Kodak Professional 100-speed transparency film
- Neutral tone scale
- Fine grain and high sharpness
- More versatility in available light
- Consistent performance with long or short exposures

BENEFIT

- Outstanding color intensity
- Neutral gray scale
- Images come to life on a light box
- Consistent gray scale rendition throughout tonal range
- High-quality scans
- Capture fine detail
- Smooth reproducible enlargements
- Capture more salable images
- No compensation required for exposures from 1/10,000 second to 10 seconds

Processing

Process in KODAK Chemicals, Process E-6. For consistent processing, use a lab that is a member of the KODAK G-LAB Process Monitoring Service.

Sizes Available
